TYPYST MIGHT
TURN WITNESS

Police Believe Mme Leneve Will Turn King's Evidence Against Crippen.

TREATED AS GUEST AT
POLICE CHIEF'S HOUSE

Utmost Kindness Used With Girl Prisoner—Parents Want Her to Confess all—Crippen is Careful and Does Not Incriminate Himself—Still Locked in a Dungeon—People Aboard Montrose Tell of Actions of Mysterious Couple.

Girl Is Innocent.
Quebec, Aug. 2.—After a grilling examination Inspector Dew today said: "Mme. Leneve is merely foolish, and is absolutely innocent of connection with the murder of Mrs. Crippen. I don't believe she even knew Mrs. Crippen was dead until she left London. Mme. Leneve will probably not be of value to us as a witness."

Quebec, Aug. 2.—The police are showering Mme Leneve with kindness in trying to persuade her to talk. She is treated as a guest at the home of Chief McCarthy. She has her own room, and is under but little surveillance. She has received cablegrams from her parents urging her to tell all. Crippen is in the dungeon of the parliament house and visitors are not permitted.

The belief is general that Mme Leneve will be the chief witness against Dr. Crippen in the inquest at London. Detectives hope she will testify for the crown both at the inquest and the trial, which will shortly follow Crippen's return.

Many persons believe the police are so markedly lenient with the girl, not only because they pity her plight, but also because they believe she is Crippen's dupe and that she may turn against him on the witness stand. This is the course her relatives in London are urging her to take as several cablegrams received today made apparent.

Crippen occupied a cell in the provincial jail on the heights east of the city overlooking the St. Lawrence river. He might ask to have the American consul notified or seek an attorney to insure that he gets fair treatment. The United States consul here is Gebhart Will-Rich, a former resident of Milwaukee and St. Paul, Minn. Mr. Will-Rich said today that while he stood ready to give Crippen all consistent assistance, he had no application to do so and expected none. In fact, he added, he saw no way in which he could better the situation of the prisoner in any way.

Inspector Dew is resting here after his labors, an object of curiosity to residents and to the tourists that throng this queer old French city at this time of year, and the envy and admiration of the local police.

Retain Counsel.
A London dispatch says Miss Leneve's relatives have retained counsel here to defend her, but on this point the police have received no official information.

Crippen seemed utterly discouraged but so far as can be learned, he has let nothing slip that can be used against him when he comes to trial. The police pin their hopes upon Miss Leneve, but following the wishes of Inspector Dew, they declare they are making no effort to obtain confessions and are not subjecting either prisoner to anything approaching the "third degree." Such efforts would be contrary to British police methods.

Crew Members Talk.
Talks with the crew and stewards of the Montrose threw interesting lights on the action of the pair on the voyage from Antwerp. Dominick Keen, the steward who looked after their stateroom, had the best opportunity of observing their actions. He said:

"I was one of the first to discover, by her neat methods in her room, her way of walking and her effeminate figure that 'John Robinson, Jr.' was (Continued on page eight.)"

GREAT STRIKE
TO BE CALLED

Negotiations Between Operators and Miners Are Broken Off.

CASE HAD DRAGGED
ALONG FOUR MONTHS

Indications are That 30,000 Miners in Missouri District Will Be Ordered to Strike—Conclusions of Negotiations Come After Miners Waited All Day for Operators to Agree to Proposals for Joint Session—Five States Affected by Action.

Kansas City, Aug. 2.—Negotiations between miners and coal operators of the southwestern territory which have dragged along over a period of exactly four months were brought to an end and a general strike order will be issued, according to George Manuel, secretary of the Missouri district and 30,000 or more miners who have not worked since the expiration of the old contract April 1 will be formally on strike. The conclusion of negotiations came after the miners had been in session the greater part of the day and had waited for the operators to agree to their proposition to hold a joint session at which a wage scale based upon what is known as the Cincinnati demand could be discussed. Conference committees had been proposed by the miners to meet such conference committees as the operators chose to appoint. But the operators held that by agreement neither the operators nor the miners could make a joint meeting, and would demand no concessions to this request of the miners. Of the number of miners affected by the strike order, about 3,500 are in Kansas, about 3,500 in Missouri, 3,000 in Oklahoma and about 3,000 in Arkansas. Some 5,000 miners in Texas though in another district, will be indirectly affected by the strike order, and this, too, will have an indirect bearing upon the miners in Colorado and other western states. At present there are a number of "independent" miners in this territory, that from the beginning have paid the wage scale asked and that these miners there will be no cessation of work. They employ about 2,800 men. Employees of these "independent" concerns will not be asked to discontinue work.

Still, even a blind asylum may be a slightly place.

CUMMINS IS
REPLIED TO

President Ripley of Santa Fe Answers Advocate of Governmental R. R. Supervision

DECLARES GOVERNMENT
NOTORIOUSLY INCOMPETENT

Sends Open Letter to Paper Replying to Senator Cummins' Advocacy of Supervision of Railroads—Cites Management of Post Office as Instance of Inefficiency and Incompetency of Government—Also Cites "Rivers and Harbors."

Special Convention Called.
Indianapolis, Aug. 2.—A special convention of the United Mine Workers will be held here during the next two weeks, announces President Lewis. The meeting will be necessary because of the complications which have arisen in certain districts in which he charges "Methods were used to drive the miners." Recently international officers attempted to settle the Illinois coal strike over the heads of state officials.

Topeka, Aug. 2.—Replying to a published statement by Senator Cummins as a member of the senate committee on interstate commerce advocating government supervision over railroads President Ripley of the Santa Fe says in an open letter to the Empress Gazette: "Since it is a notorious fact that neither national, state or municipal governments have ever transacted business economically, there is no reason to expect anything but failure from governmental supervision of railroads. Witness to that the colossal incompetency of the post office department which is annually piling up a deficit of millions and whose only efficiency is derived from the railroads it underpays and browbeats. Witness also the annual river and harbor fraud perpetrated on the tax payers."

COMMITTEE SEEKS
FOR INFORMATION

Following the regular monthly meeting of the Commercial club this evening a meeting of the Umatilla project extension committee will be held in the rooms of the association. A call for a meeting of the committee was issued this morning by Dr. C. J. Smith, the chairman, and it is understood that the our or town members of the committee will be in attendance. The meeting is called for the purpose of inquiring into the status of the proposed extension. Reports that the government may abandon the extension in favor of a private company have caused the committee uneasiness and it is the intention to go to the bottom of the matter if possible. At the meeting this evening Congressman W. R. Ellis will also be in attendance.

FAMOUS U. S. DETECTIVE
DISCUSSES CRIPPEN CASE

Washington, Aug. 2.—In writing for the United Press, John Wilkie, chief of the United States secret service, said: "I have followed every detail of the Crippen case, and will say the denouement when the arresting officers boarded the liner Montrose at Quebec, was in harmony with the dramatic incidents following the discovery of the body at Crippen's house in London. The successful employment of the wireless is a beautiful demonstration of what may be accomplished in pursuit of a criminal. The phase of the case on which the attention of the police will be centered is the relative identification of the victim and the proof that a crime was actually committed. I have noticed that Superintendent Forrest of Scotland Yard is confident the government has an impregnable case built on circumstantial evidence, and I have the highest opinion of this conservative officer."

PACKAGE OF VALUABLE
GERMS IS STOLEN

Topeka, Kan., Aug. 2.—Thirteen vials containing tuberculosis and diphtheria germs addressed to Dr. Sarah A. Greenfield, bacteriologist of the state board of health, disappeared in the mails last Friday and a search for them resulted in finding the vials open and empty, in an alley in the west part of the city, yesterday. The package containing the vials was taken out by the postman but was lost or stolen before he delivered it. The state board of health decline to tell exactly where the vials were found fearing to rouse the neighborhood. There were enough germs in the vials to depopulate the state but the board of health thinks there will be no serious results, as the broken vials were found where direct rays of the sun shone on them.

Investigation disclosed the bodies of the man and woman in the doctor's apartments.

Republicans Back of It

Beverly, Aug. 2.—It was learned today on highest authority that Senator Crane of Massachusetts, was acting on the initiative of the republican national leaders and that Taft was tacitly acquiescing when he conferred with Ballinger in Minneapolis yesterday and suggested that Ballinger relinquish his portfolio before October 1.

BALLINGER
HITS ENEMIES

Secretary of Interior in Interview at Minneapolis Voices an Attack

DECLARES THEY WANT TO
MAKE HIM A SOAPSCAT

Characterizes Them as Demagogues Who Are Trying to Foment Trouble Between Colonel Roosevelt and President Taft—Says Everybody in Seattle Likes Him—Denounces Phinchot and Garfield and Upholds Present Administration.

St. Paul, Aug. 2.—In an interview which he gave out last night at Minneapolis, Richard A. Ballinger, secretary of the interior, bitterly arraigned his enemies as "demagogues" and charged that not only are they seeking to make a scapegoat of him, but they are also trying to foment trouble between President Taft and Theodore Roosevelt. After referring to the fact that at Seattle, his old home, everyone is his friend, and that he went to Washington as secretary only after being long sought after, he said:

"Pinchot, Garfield and that bunch have been after me, trying to make a scapegoat of me. The president and I have done all we could to make this administration a success. The president is heartily in favor of a radical conservation and so am I. There are a lot of demagogues who would like to see a breach formed between Theodore Roosevelt and President Taft. It is just the way of things. But President Taft has been wise. He has taken a broad and liberal stand for constructive and upbuilding policies."

There is an intimation that Ballinger's resignation is believed to explain the "accidental" meeting of Crane and Ballinger at Minneapolis yesterday. Secretary Norton refused to confirm or deny the report. President Taft played golf this morning and was visited by General Wood and Congressman Olcott this afternoon.

Crane recently visited Taft and his visit was mysterious. That pressure is being brought to bear on the president to give him a hint that Ballinger should retire is the general impression. It is reported that Crane told Ballinger he must resign shortly after the report of the investigating committee at Minneapolis on September 11. He said Ballinger expects to return to Seattle to practice law.

RESOLUTION TAKEN
AS JOIT AT CURTISS

New York, Aug. 2.—The national council of the Aero club of America which met yesterday to consider the protest of Chas. M. Hamilton against Glenn H. Curtiss, announced that a resolution had been adopted denying the sanction of the club to any aviation meet not open to all qualified and licensed aviators. Although no mention is made of either Curtiss or Hamilton, the resolution is interpreted generally as a direct slap at Curtiss. In his protest Hamilton charged that representations made by Curtiss to the management of the coming Harvard aviation meet had caused the management to refuse his entry. This conduct he denounced as unsportsmanlike and un-American. In effect, the national council now rules that unless Hamilton's entry is accepted the Harvard aviation meet will not be sanctioned and the records made there will not be considered official.

Engineers Meet

Chicago, Aug. 2.—Representatives of locomotive engineers on 58 railroad systems west of Chicago met here yesterday to consider plans which may result in a general demand for higher wages. Warren S. Stone, grand chief of the brotherhood, is in charge of the conference which represents about 25,000 men.

Delegates declared it would take some days before a uniform schedule would be agreed to, after which the schedule would be presented to the railroads.

The most uncommon thing in this world, despite its universal application, seems to be common sense.

ALLEGES WOMAN IS
NOT JOHNSON'S WIFE

New York, Aug. 2.—Alleging the white woman with Jack Johnson was never married and that his real wife has been driven away, the morning Telegram urges the police to stop Johnson's motoring through the streets with her. The paper alleges his real wife is of light color but has negro blood in her.
